The single, simple solution to a multitude

The more efficient your workflow, the more productive you'll be. So as you start streamlining organizational resources and enabling diverse products to work together smoothly, realize that the Toshiba e-STUDIO353/453 digital devices provide the ultimate multifunction monochrome solution.

Not only do they offer optional network printing, faxing, and scanning capabilities, these 35- and 45-page-per-

minute (PPM) multifunction devices are ideal for busy workgroups that produce up to 150,000 copies per month. Plus, they are incredibly easy to use, so you maintain peak productivity. The cost-effective e-STUDIO353/453 devices are built to leverage Toshiba's e-BRIDGE architecture. This hardware-based technology

of business needs.

facilitates seamless communication and integration into many existing business document workflows and IT infrastructures. If you're looking for easy workflow integration, small footprint, and a host of impressive capabilities, the e-STUDIO353/453 devices are the perfect mid-size document solutions.

Intuitive by design

Because all e-STUDIO multifunction peripherals (MFPs) share a common interface, once you learn one e-STUDIO device, you can move between other devices quickly and efficiently.

The large, easy-to-learn touch screen control panel helps simplify any task, and provides one-touch access to frequently used features and functions.

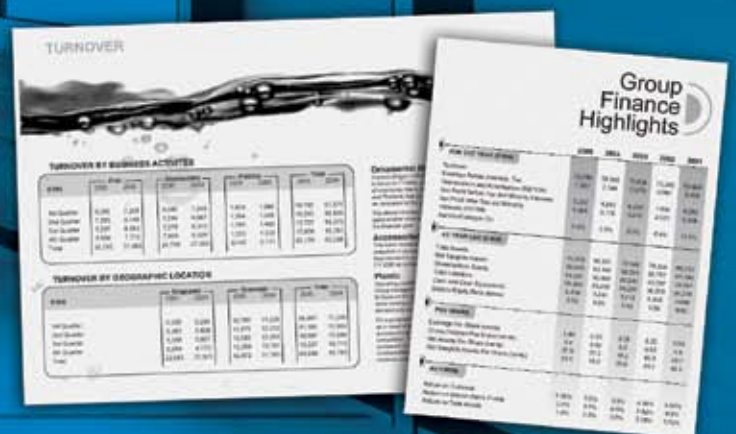

Grows along with your business

The e-STUDIO353/453 are built-to-order with all of the features you need now and they're completely expandable, so you can add additional features as your needs change. It's easy to transform your e-STUDIO353/453 from a standalone copying device to a fully integrated copier, printer, scanner, and fax.

Image is everything

Thanks to the crisp, clear 2,400 x 600 dpi resolution, your documents will look great—with razor-sharp text and smooth halftone reproduction.

Four distinct functions, right out of the box.

Easily expand your capabilities

The e-STUDIO353/453 devices come complete with Toshiba's e-BRIDGE technology residing on the core hardware. This allows users to 'unlock' additional functionality—such as network printing or scanning—with a small USB-type key. This innovative technology reduces installation time, additional hardware costs, and time spent learning to use new devices.

The e-STUDIO353/453 multifunction devices also come complete with a spacious 40+ GB hard drive. With it, your workgroup gains additional document storage capabilities while reducing the volume of network traffic.

Flexibility, quality, and exceptional value

Multi-position stapling, booklet-making, and hole punching are just a few of the sophisticated document-finishing capabilities.

The robust scanner is capable of scanning up to 50 originals per minute (OPM), dual-sided scanning, mixed original scanning, and continuous scanning up to 1,000 pages.

e-FILING allows users to input and store documents into a private mailbox via scanning, printing, or faxing and editing them from their desktop.

The large, adjustable touch-screen control panel provides easy-to-understand device graphics that offer detailed descriptions of overall functions.

An optional second fax line virtually doubles fax productivity.

Easily secure access to the device in addition to confidential information.

Proprietary templates offer fast and convenient access to frequently used settings. This feature also lets you execute various jobs simultaneously.

The 100-sheet bypass tray accommodates specialty stock such as thick papers and transparencies.

Gain maximum uptime via the easily accessible, user-replaceable toner cartridge, and waste toner bottle.

Two standard cassettes and a variety of paper configurations accommodate an impressive 3,700-sheet capacity.

Expandable architecture and easy administration

Next-Generation e-BRIDGE Architecture

The e-STUDIO353/453 come with Toshiba's proprietary e-BRIDGE architecture. This innovative all-in-one hardware design allows the devices to share system resources, making image processing more efficient. As a result, users complete more tasks faster.

Monitor devices remotely with TopAccess

For added flexibility, both e-STUDIO353/453 devices are designed to take advantage of a powerful web-based job and device management tool called TopAccess. By accessing two separate websites, end users and administrators gain access to a host of remote features. End users can manage the status of various print, scan, and fax jobs that have been transmitted. And, administrators can set network and device configurations remotely. Plus, the devices proactively notify the administrator of system errors or when they need maintenance or supplies.

Expand your capabilities with Toshiba's exclusive e-BRIDGE technologies:

e-BRIDGE Re-Rite

Convert scanned documents into 17 easily-editable file formats, including .doc, .html, .pdf, and more, with the touch of a button.

e-BRIDGE Job Separator

Perform simple batch printing operations to your e-STUDIO MFP from any Windows application.

e-BRIDGE Job Build

Combine multiple documents—even of different file types and options—into a single print job.

Make your device even more productive

Combine powerful software solutions with Toshiba's innovative technology

Convert scanned documents into 17 file types with the touch of a button

Instant optical character recognition (OCR) file format transforms hardcopy text and graphic documents into easily-editable file formats including .doc, .html, .pdf, and more. This innovative technology automatically performs OCR and file conversions on the fly. Converted images can then be sent to network drives, Email, or both.

Flexible, rapid solutions for paper-to-digital business integration

eCopy ScanStation OP document imaging and distribution software transforms your Toshiba MFP into a full-featured information hub. It integrates hardcopy documents directly into the workflow of critical business processes. Additionally, easy-to-use administration tools let you manage multiple devices from one central location.

Do more with less.

All these features are just part of the story. To find out more, visit us online at copiers.toshiba.com, or call your local Authorized Toshiba Dealer.
